Allowable Subject Matter

4. The following is a statement of reasons for the indication of allowance subject matter: the prior art of record does not teach or suggest the combination of a support layer on a bumped die or bumped wafer, wherein the support layer has an underfill layer both to provide wafer support and as an underfill material. The underfill layer covering at least a majority of the bump-bodies surface, while leaving a remainder portion of the bump bodies exposed. An adhesive protection tape include a flexible conforming layer applied to the underfill layer, wherein the conforming layer to cover the remainder portion of the bump-bodies not covered by the under-fill layer in claims 3, 13, and 25.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
